Sprint 2 Plan
Project Name: Tutor Trade
Group Name: Slug Tutors
Spring Completion Date: 7-14-19
Revision: 0
Date: 7-8-19

Goals:

- A sign up functionality that creates a profile and stores user information on a connected database.

- Basic functionality of the knowledge board completed.

User Story 1:

As a student, I would like a profile that I can edit and upload an image to so that I can personalize my experience while requesting tutoring services.

- Task 1 - Connect sign up link to database and store profile on the database (8 hrs)
- Task 2 - Create profile page (2 hrs)
- Task 3- Implement image upload function (8 hrs)
- Task 4 - Implement editing functionality (5 hrs)
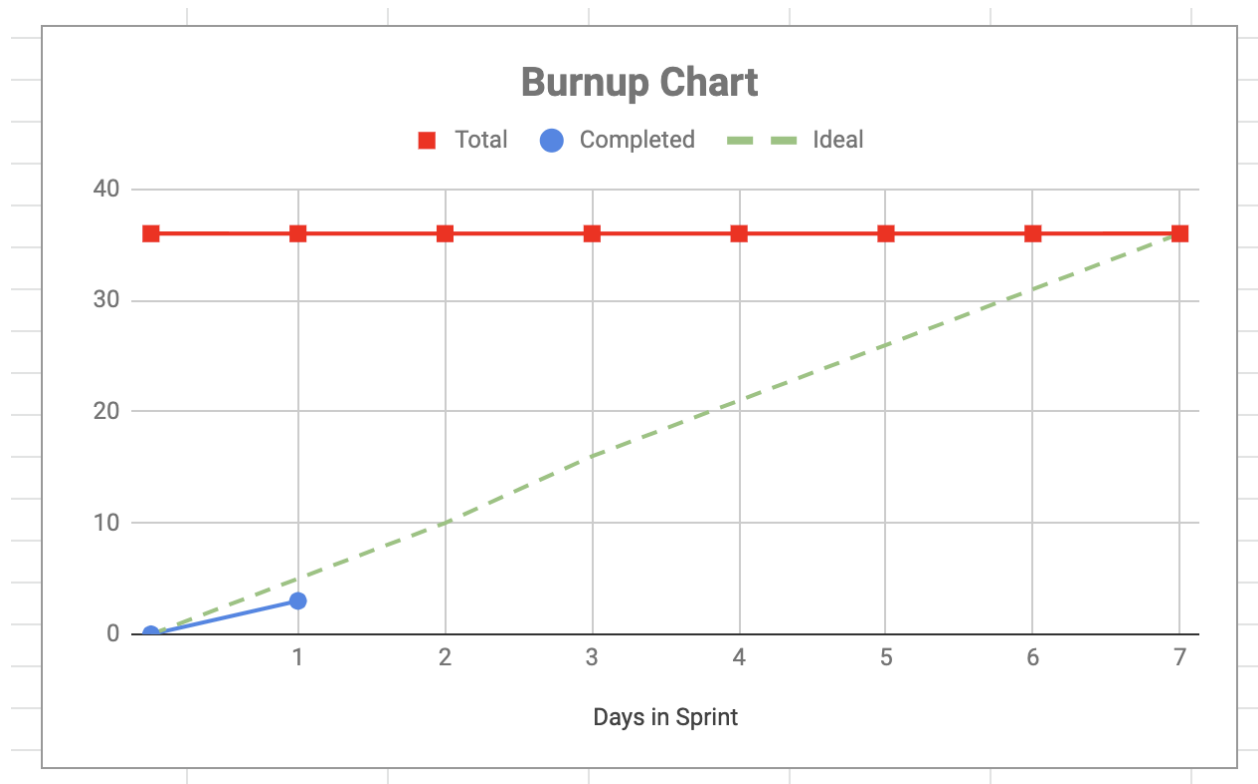

User Story 2:

As a student, I would like to browse postings for tutoring services so that I can obtain the specific tutoring I need.

- Task 1 - Implement the function to post on the knowledge board (2 hrs)
- Task 2 - Ensure posts are connected to the database (2 hrs)
- Task 3 - Implement the method to browse or search posting on the knowledge board (9 hrs)
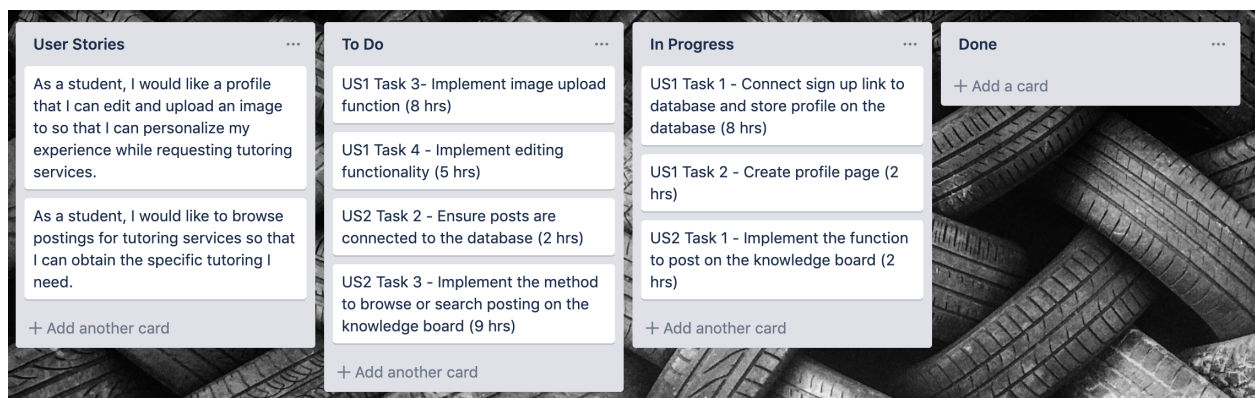

Initial Task Assignment:

The number one task that needs to be completed as soon as possible is connecting the database to our project, the entire team will initially focus on finishing this task quickly.

Initial Burnup Chart:

Initial Scrum Board:
